Library - Are you leaving the school? Please remember to return your library books, post them for the secondary library to the school or drop them off at reception

S6 Virtual Careers Days review - [read more](#)

S4 - Virtual Work Experience week feedback

Canteen - the canteen will be closed until September.

S3 Project week

All of S3 are involved in a cross-curricular project over the week 8-12 June around the theme of space. Students will work on a range of tasks individually or in groups, from designing their space station to growing food or developing an escape room on their space station, to creating poetry or art in response to space and the aliens they might meet, deciding on the society living on the station and how it is organised and considering how to keep spiritually, mentally and physically fit and healthy.

Grand Slam tennis challenge

Dear all. I, together with a friend of mine, who actually played at Wimbledon (!), have come up with this fun and exciting challenge for you to try. There are 4 grand slam tennis tournaments in the year and in order to win one you need to win 7 games of tennis. This week it's the first grand slam of the year; The Australian Open. Complete the 7 challenges, fill out the log book and email to me. If you complete all four grand slams you will have a chance to go for the golden grand slam, which only one tennis player has ever completed, Steffi Graf, in 1988. Can you match her? Are you up for it? Each grand slam will be revealed each week and will get progressively harder, with the golden challenges being off the scale.

K. Mackenzie

S5 IB Foundation Programme

From Monday our S5s move (virtually) into the new and exciting world of International Baccalaureate studies. The cancellation of S5 exams and work experience weeks has opened up an opportunity to introduce the IB Diploma early and we are excited to be launching the programme on Monday 8th June, and to be offering four IB Foundation Weeks. Students will follow distance learning masterclass sessions in each of their IB option subjects and some "Core" elements such as Theory of Knowledge and CAS (Creativity, Activity and Service). We look forward to welcoming students who will join the school for the IB Diploma Programme to these virtual sessions too.

May Maths Challenge Winners

name	class	Total	27 Apr - 1 May	4 May - 8 May	11 May - 15 May	18 May - 22 May
