S6 contact weeks

It was fantastic to see most of S6 back in school this week (and next!) and for them to enjoy live lessons, either delivered by teachers in the classroom (or outside in the sunshine) or online. Students were also able to discuss next year's programme and plan for summer reading. Due to popular demand we have planned to hold a second week of live lessons in school in most subjects next week from Monday to Thursday, and we look forward to again welcoming S6 back into school.

Staff took the opportunity during the S6 Contact week to hold a series of meetings with students wishing to apply to university via UCAS. Students met their specialist advisers and discussed a range of topics including Personal Statements, Key dates, firm and insurance choices and the purpose and benefits of GAP years. Many students were set related targets to research and meet over the forthcoming Summer break.

Junior Maths Challenge

The UKMT have made the Junior Maths Challenge (JMC) 2020 available online this year, in response to our school closure.

The date that Europa School students will be taking part in this Challenge is

the 1st of July 2020, Wed at 11:00 am.

27 students have shown their interest in participating in the Challenge.

Thank you and good luck!

from the Secondary Maths Team
