ECOLOGY STUDY FIELD TRIP CRANEDALE 2023

52 students in S5 were involved in this year's school trip to Yorkshire, where over 3 intense days of scientific study, ecological and geographical discovery took place. They enjoyed fieldwork in the countryside and in coastal settings. The super tutors at Cranedale Centre and the Europa teachers delivered a variety of hands-on experiments for the students, from rock pool data gathering that lead, to an understanding of the trophic system of energetics to pollution analysis and comparative study in the streams and waterways of Pocklington in East Yorkshire, to learning about sustainable forest management and the impact on bio-diversity in a native woodland. The students enjoyed their time away from the rigorous routine of school life, and even made the best of being hit by the rain of Storm Lee on the first day's activity. We are pleased to report that our students have received compliments from centre staff, for their politeness, enthusiasm and great questions.

MUSIC FLOOD EVENTS AT EUROPA SCHOOL

Music Flood is a partnership of schools and local music organisations supporting teachers as they put inspirational music at the heart of the school.

This week Primary had organised various music workshops in connection with Radley College and on Wednesday we had a visit from Moonaroon, a folk band. Some of our Secondary students got the opportunity to also enjoy the Moonaroon performance with Edi (S4) getting the chance to try out one of their instruments.

OXFORD CHAMBER MUSIC FESTIVAL

PRIYA MITCHELL - ARTISTIC DIRECTOR

**FREIGEIST - a state of being and a free spirit - source of
all great art and the life blood of creativity!**

We celebrate the geniuses who wrote and lived with **FREIGEIST** as their credo and gave us all the extraordinary music we will share with you. From the several meanings of the German term "Freigeist" our chosen interpretation is the simplest: the free spirit and romantic manifestation of all that is creatively unfettered, the opposite of material and manipulated. As we emerge from the curbs and restraints of the last few years we all long to express our humanity and connectedness.

**What more inspiring pathways to this than the compositions of pioneering
minds and spirits like Mozart and Stravinsky?**

Join us this Autumn to experience the unique OCMF atmosphere in historic venues in Oxford. We are looking forward very much to you being part of this and seeing all our OCMF musicians and audience again!

Help your children to read and succeed in Science and Maths

370,000 secondary school students tested

Data from GL Assessment, research from 2018-2019, report found at <http://www.gl-assessment.co.uk/whyreading>

Have you 5 minutes?

Ask your child to read the headlines on their mobile phone and tell you which one seems more interesting or intriguing, and why.

If you have 10 minutes

Ask them to read a short article and summarise it. Then you could ask: do you agree with what the article said? Why or why not?

When you have 30 minutes

Choose an article and read together. Ask each other why you prefer this or that subject. Discuss what the author really meant and if your children had seen the topic in school already.

Pet dogs a threat to nesting birds in South Walney - warning

Q & A page

Five gannets among the species of ground-nesting birds at South Walney Nature Reserve

Grey waders, black-gulls and drongos are disturbing nesting birds at a nature reserve, conservationists have warned.

Continuing Wildlife Trust said it had received multiple reports of "disturbing" incidents at South Walney Nature Reserve near Barrow.

It is urging visitors to stick to clearly-marked paths away from beaches where are out of bounds.

Dogs are not allowed on the site unless they are assistance animals.

Nature reserve officer Paul Wainhouse said birds such as Arctic terns, oystercatchers and waders were ground-nesting and particularly vulnerable between March and April.

"Sadly we're getting lots of reports of recreational disturbance of wildlife by people and their dogs, which is particularly alarming as nesting season is now under way."

"It can be really hard to see the speckled birds eggs and the little chicks can be extremely well camouflaged too, and almost impossible to spot amongst the shingle (shells) found all around the shorelines at South Walney."

"If you're a very well-behaved dog on a lead will save birds away from their nests."
