“Better Spaces for Every Day”

Help us transform Europa School

Join us in making a significant impact at Europa School UK.

In 2026, we want to continue some of last year's campaign's aims, with a particular focus on toilets and playgrounds.

As you'll see, we will be working closely with the PTA on this year's projects to further improve our school site.

1. Improve and Extend Toilets

The school is committed to improving the toilets, and we are working with the PTA on an improvement campaign. In addition, we need to make some structural improvements to the girls' bathroom and changing area in the Old Gym and renew the flooring.

There is only one main boys' toilet in the secondary school, and we aim to create a new boys' toilet off the quad.

Improved Girls' Toilets

2. Creation of a New Classroom

There are some smaller rooms in the clock tower that we need to merge to create a large classroom space, allowing for the continued growth in the secondary school.

3. Playground Surface Improvements

We hope to install new safety flooring in P1 and P3 under the play equipment to allow for safe use. We would also like to also create a rain garden and quiet garden in P1 to reduce the remaining mud and enhance the playground further to improve drainage, but also care for the environment.

We are working with the PTA to improve the interactive play areas in all three playgrounds.

How much do we need to raise?

1. Improve and extend toilets-
£20,000
2. New Classroom- £5,000
3. Playground surface
improvements- £20,000

Total:

£45,000

How can I donate?
