## Mental Health Awareness Week 12 - 18 May 2025

The theme for this year is: 'Community'

We know that being part of a community is vital for our mental health and wellbeing. We thrive when we have strong connections with others and supportive communities around us.

We also know that people who are more socially connected to family, friends, or their community are happier, physically healthier, and live longer, with fewer mental health problems than people who are less well connected.

Communities can provide us with a sense of belonging, safety, support in hard times, and give us purpose.

A community should make you feel good about yourself, feel safe, and feel empathy towards others. A community is there to help you through the hard times such as illness, bereavement, or natural disasters.

Of course, not all communities are safe or healthy. If a community makes you think badly of yourself, encourages hateful or discriminatory actions towards others, or puts you in danger, it will be damaging to your mental health and wellbeing.

So, this Mental Health Awareness Week we want to celebrate the communities that support us to protect and nurture good mental health. Show your support and go GREEN for the day!
