Engineering Encounters Careers Fair -  
S4, S5, S6 (S7 offered)

Visit of Teachers from Korea - IB Diploma Programme

## Sustainability team news

Last week, Europa took part in the **Sustainability in School: A Teacher-Researcher Networking Event** organised by Oxford University.

We presented highlights from our Climate Action Plan and met sustainability leads from other schools as well as inspiring researchers.

It was a very successful event with several exciting partnerships for 2026 for both Primary and Secondary! In Secondary, we will once again welcome scientists from a range of fields to deliver interesting sessions for students, giving them a clearer insight into future careers involving sustainability.

We are negotiating opportunities in citizen-science projects, workshops and bespoke extra-curricular activities.

Our aim is for Diploma students to benefit from their expert input during their scientific investigations and for teachers to have network with professionals involved in cutting-edge educational research.

We would also like to extend our call to parents who work in any science-related field.

If you would be interested in contributing to our Science Week (9–13 March 2026)—whether through a talk, workshop or another activity, please get in touch.

## Digital Boost: A Huge Thank You to SOFEA and Europa PTA!

We are delighted to announce the arrival of a new fleet class set of high-quality, reconditioned laptops for our students.

This was made possible by SOFEA and the PTA, who paid a donation for each device to secure them for the school.

This is the second class set of laptops donated by the PTA this academic year.

Our IT Manager, Steve, is absolutely ecstatic about the new arrivals. Having inspected the hardware, he noted that the laptops are excellent quality and will make a huge difference to the students.

This donation will ensure more class groups can work digitally simultaneously on good quality devices ensuring faster access to digital resources and creative software.

We are also really happy to partner with SOFEA, a local social enterprise that champions sustainability.

A massive thank you to the PTA for their fundraising efforts and to SOFEA for helping us bridge the digital gp.

Thank you to our fabulous primary orchestra, expertly led and conducted by Noriko, who put on a wonderful **Christmas performance** for their parents this week.

## Why you should join the Latin Club!

Every Wednesday from 1:45 to 2:45, a small but enthusiastic group meets for Latin Club, led by Mme Dubois and Mr Campbell with students from Radley College. Although Latin is often called a “dead language,” it has become one of the most enjoyable and useful parts of my week.

Studying Latin has made me feel more connected to the languages I use every day. As I learn new Latin words, I suddenly notice their echoes in English and other languages, and it feels like uncovering hidden threads that tie them all together. So it all makes sense!

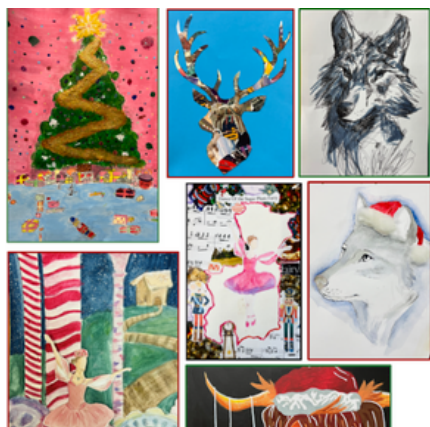

What I like the most about the club is that we don't just translate sentences - we explore Roman myths, history, fun language puzzles and how Latin still shapes the world today, all in a friendly, relaxed atmosphere.

You might be surprised by how much Latin can help you now and in the future!
