28th March 2025

Dystopian Worlds , Science Week, Thursday 13th March 2025

Avez-vous déjà fêté la Semaine de la Science? Si oui, comment? Jeudi, un groupe d'élèves de S3F a eu la chance de la célébrer en interprétant un texte dystopique sur l'avenir de notre planète . Ensemble, nous avons conçu une pièce de théâtre mémorable en français et l'avons jouée devant un public de S7 et S6, en plus de quelques invités et profs,dont Mrs Reis, la prof de Sciences de l'environnement! Non seulement c'était très excitant et nouveau, mais ça nous a aussi permis d'améliorer notre prononciation française!

Nous avons également lu le texte en français puis sa traduction anglaise (que nous avons préparée en classe) pour que tout le public puisse comprendre. Les collégiens acteurs étaient Matilda, Léonie, Hannah, John, Richard, Zosia , Joshua et Ellie.

Léonie C, S3F

On Thursday last week, some students from S3F performed a story they'd been studying for science week. The text, *La Maison Verte*, by Mikaël Oliver, was end section by section first in French then in English, followed by a theatre piece inspired by said text. The text itself is set in a distortion world in the future, and is about a family trying to obtain the "Green house label". It seems very utopian until the father of the narrator comes home from work and is glowing from radiation exposure. Quite frightening, isn't it?

The play was performed in the Canteen's annex to some S6s and S7s, who were a great and cheerful audience though unexpected!

Matilda WJ, S3F

A great achievement to all the students involved in this eco-friendly project! Bravo à tous pour leur engagement et leur performance sur scène! And "obrigado" to Adriana Reis for organising such an inspiring event at school!

Bénédicte Dubois, French teacher in Secondary

¡POR FAVOR!

The Spanish department would like to increase its collection of authentic reading material. If you are travelling to a Spanish-speaking country this Easter and happen to pick up a magazine, please consider donating it once you have read it. All genres welcome: lifestyle, home, beauty, sport, Minecraft, Lego etc! A collection box will be available in Reception. Muchas gracias.

NOTAN ART : S2 PROJECT

S2 project worked on the NOTAN design concept this week, involving the play and placement of light and dark elements, as they are placed next to the other in the **COMPOSITION** of art and imagery.

A mixed group of 23 S2 students worked beautifully to create a NOTAN art piece, amazing work, very focused to complete this in just 40 minutes.

Notan is a Japanese term that means
LIGHT & DARK, HARMONY & BALANCE.

**Sponsor our IB
Academic Prizes**

Can you help us?

Do you own or are you employed by a business that would be interested in sponsoring one of our awards for the International Baccalaureate Proclamation?

Each year, we give prizes in recognition of the students who have excelled or have developed the most in different subject areas. Traditionally, prizes have been £30 book vouchers, but we are open to exploring alternative ideas. For instance, the Science prize winner will receive a personalised tour of a world-class scientific establishment instead of a monetary reward.

Get in touch with us with any questions or leads:
